COMMUNITY ANNOUNCEMENTS

Thank You, Thank You, Thank You!

To all who participated, volunteered, attended and presented during Family Weekend and the DECADE ONE celebration! More than 600 people were on campus last weekend to enjoy all that Olin had to offer! The list of individuals who worked very hard to make these events, plus the ABET visit, the Board/PC visit and Admission Open House successful is much too long to note here, but please know that as an institution we are extremely thankful and proud of what this community accomplished last week! We'd also like to extend a special thanks to our Aramark and Sodexo partners who made gifts in kind to support DECADE ONE and without whom none of last week's logistical successes would have been possible!

New Faculty/Staff Lounge

Milas Hall room 350 has recently been converted into a faculty/staff lounge, complete with a sink and coffee maker. The space is available to both groups for informal coffee and lunches, etc. Enjoy!

Three College Collaboration Offers Winter-session Program on Sustainability

The Three-College Winter-session Program is a free program in which four students each from Babson, Wellesley, and Olin work together as a team of advisors to help an organization that creates lasting social value using their diverse set of skills and perspectives. This year, the Three-College Winter-session Program is partnering with [Practically Green](#), a Boston-based sustainability firm. Practically Green is a young, dynamic company that works with different communities to engage members in practical sustainable living through innovative, fun social networking. The team will work closely with Practically Green to help develop its presence on college campuses. Participants will live together for two weeks in a Babson dorm, work at Olin College during the day, and have all of their meals provided by the program. **Students interested in participating should contact [Andrea Cuadra](#) as soon as possible.**

Argosy Collaborative Faculty Exchange: Applications Sought!

Next fall, in partnership with the Argosy Foundation, Olin will debut an innovative faculty exchange program. The **Argosy Collaborative Faculty Exchange** is designed to catalyze educational innovation through cross-campus collaboration. We are currently soliciting applications from engineering educators and their institutions, so please help spread the word! For more info click [here](#).

Olin's Emergency Alert System – Sign up NOW!

Did you receive emergency info for Hurricane Sandy from OLIN EAS, our Emergency Alert System? Now is a good time to register or update your information for any future notifications. Olin's Emergency Alert System (Olin EAS) allows for rapid dissemination of news and instructions in the event of an campus-wide emergency. Alerts for this system are managed through the Public Safety Department at Babson College. Olin community members are responsible for populating and maintaining their information. Contact information can be updated and changed anytime by logging into Olin EAS. Click [here](#) for more information.

2012 Holiday Schedule Posted

The 2013 holiday schedule has been released, please click [here](#) to view a copy.

Winter Weather Announcements

Please click [here](#) to learn more about how and when winter weather announcements are made at Olin.

Upcoming I2E2 Visits + Thank You Sanjoy!

Visitors in the coming weeks include a team from CREaTE at the University of Texas at El Paso (UTEP) (11/5-7), Shady Hill School (11/13) and University of Tokyo (11/13 or 14). Please let [Sharon Breitbart](#) know if you'd like to be involved! I2E2 would like to give a shout-out to Sanjoy Mahajan for helping out our friends at LASPAU this week by filling in at their conference when some of their speakers were unable to travel because of Hurricane Sandy.

JOBS, INTERNSHIPS AND MORE...

EarLens Corporation – Redwood City, CA

Mechanical Design Engineer

At EarLens™ Corporation, we are designing and building the highest quality hearing device available. The candidate will assist in the mechanical design for our clinical and commercial medical devices. He or she will work with a highly skilled, motivated interdisciplinary development team and be able to take a supporting role in bringing the product to market. The position will require attention to detail and the desire to understand the theories about why things work, not just how things work. The ideal candidate will be able to influence product architecture choices, develop detailed subsystem designs, participate in

the transition to high volume manufacturing and ensure high quality every step of the way. This is a hands--on position. The candidate must be able to add to the team as an individual contributor and direct the work activities of contractors, vendors and suppliers. [Click here](#) for the complete job description, application instructions and additional company information.

Olin JobFinder

Don't forget, Alumni have access to the [Olin JobFinder](#). Please see below for recent postings, just search by job number. Need your account updated? [Email Suzanne](#).

- **EnerNOC, Inc. – Boston, MA & Boise, ID**

TRIVIA

In the previous issue we asked "What autonomous race is Olin co-hosting with the City of Gloucester in June 2013?" We had another 4-way tie! Jeff Beck, Illana Walder-Biesanz, Caroline Condon and Sarah Matthew all answered correctly, Sailbot!

Trivia buffs, do you know...

Q: In what year did Olin's founding faculty arrive to being creating our unique educational program?

A: First person to respond to [Alyson Goodrow](#) with the correct answer receives a prize.
