## INTRODUCTIONS

THIS TOOL ALLOWS HANDSHAKE USERS TO ACT AS A TRUSTED INTERMEDIARY IN THE DIGITAL REALM. CONTACTS CAN BE INTRODUCED WITH SUPPORTING DATA TO HIGHLIGHT OPPORTUNITIES TO WORK TOGETHER. THE SYSTEM CAN SUGGEST PEOPLE TO INTRODUCE.

A PROTOTYPE OF THIS TOOL WAS CREATED WITHIN HANDSHAKE IN ORDER TO BE LAUNCHED TO ACTUAL HANDSHAKE USERS

The screenshot shows a web interface for introducing contacts. It includes a 'Send message to:' field with a pre-written message, a 'Tags' section with checkboxes for 'Java', 'Social Platforms', 'Olin', and 'MITRE', and a 'Groups' section. A 'History' section on the right shows a list of introductions with dates and names of the people involved.

The screenshot shows a table with columns for 'Sent' and 'Received'. Below the table, there is a 'History' section with a list of introductions, including dates, times, and names of the people involved. A 'You've been tagged with:' section lists tags like 'professional interest 2' and 'project management'.
